Kanri : The subscription Management App

INTRODUCTION

The Kanri Subscription Management App aims to help people manage their subscriptions more efficiently by providing a single dashboard for real-time tracking, automated alerts for reminders and notifications, and tools for monitoring spending and budgeting. It provides flexible analysis of data and easily works with existing systems to simplify processes like billing and data analysis. The project is divided into many stages, including research and analysis, requirement collecting, design and prototyping, development, testing and quality assurance, integration, documentation and training, and deployment.

Kanri : The subscription Management App

OBJECTIVES

Kanri : The subscription Management App

Increase Efficiency:

By automating subscription tracking and billing processes, the app aims to save time and reduce manual work.

Reduce Costs:

Improved expense monitoring and budgeting tools help organizations identify cost-saving opportunities and avoid overspending.

Enhance Visibility:

A combined dashboard delivers real-time information on subscriptions, billing cycles, and payment statuses.

Improve Decision-Making:

Customizable analytical solutions let businesses gain knowledge of their subscription data and make smart decisions.

Enhance Customer Satisfaction:

By ensuring timely renewals and payments, the app helps maintain uninterrupted service and avoid penalties.

Drive Growth:

Efficient subscription management can help to improve financial control and allocate funds, hence promoting business development.

PROBLEMS

Lack of Centralised Management

Poor Decision-Making

Missed Deadlines and Payments

Integration Challenges

Inefficient Budgeting and Expense Tracking

Security and Compliance Risks

SOLUTIONS

Centralized Management Dashboard

Customizable Data Analysis

Automated Alerts and Notifications

**Integration Capabilities**

User-Friendly Interface

Expense Monitoring and Budgeting Tools

**Enhanced Security and Compliance**

LOG IN SCREEN

1 Overall Layout: The log in screen has a clean, welcoming design with the brand name "Kanri" prominently displayed at the top as the header.

2 Visual Design: Below the header, the tagline "Subscription Made Easy" is presented to convey the app's purpose. The primary call-to-action, "Sign Up for Free," is centrally positioned to encourage new users to register.

3 Interactivity: Below the sign-up prompt, there are several buttons for different log-in options: "Continue with Phone Number," "Continue with Google," "Continue with Facebook," and "Continue with Apple." These options provide flexibility for users to log in using their preferred method. Additionally, there is a "Log In" button for returning users.

HOME SCREEN

1 Overall Layout: The home screen features a left sidebar for navigation and a profile button located at the top right corner for easy access to user settings.

2 Visual Design: The main content area displays the total amount due for the user. Below this, there are options to view a full overview of the apps requiring payment and a quick pay option for convenience.

3 Content: A list of apps the user is subscribed to is displayed, giving a clear summary of the user's subscriptions at a glance.
SIDEBAR

1 Overall layout: The left sidebar is a key navigational element, providing access to various sections of the app.

2 Content: The sidebar includes the following sections: Home, Supported Apps, Payment, Settings, About Us, and Help Centre. This structure ensures users can quickly find and access the main features of the app.
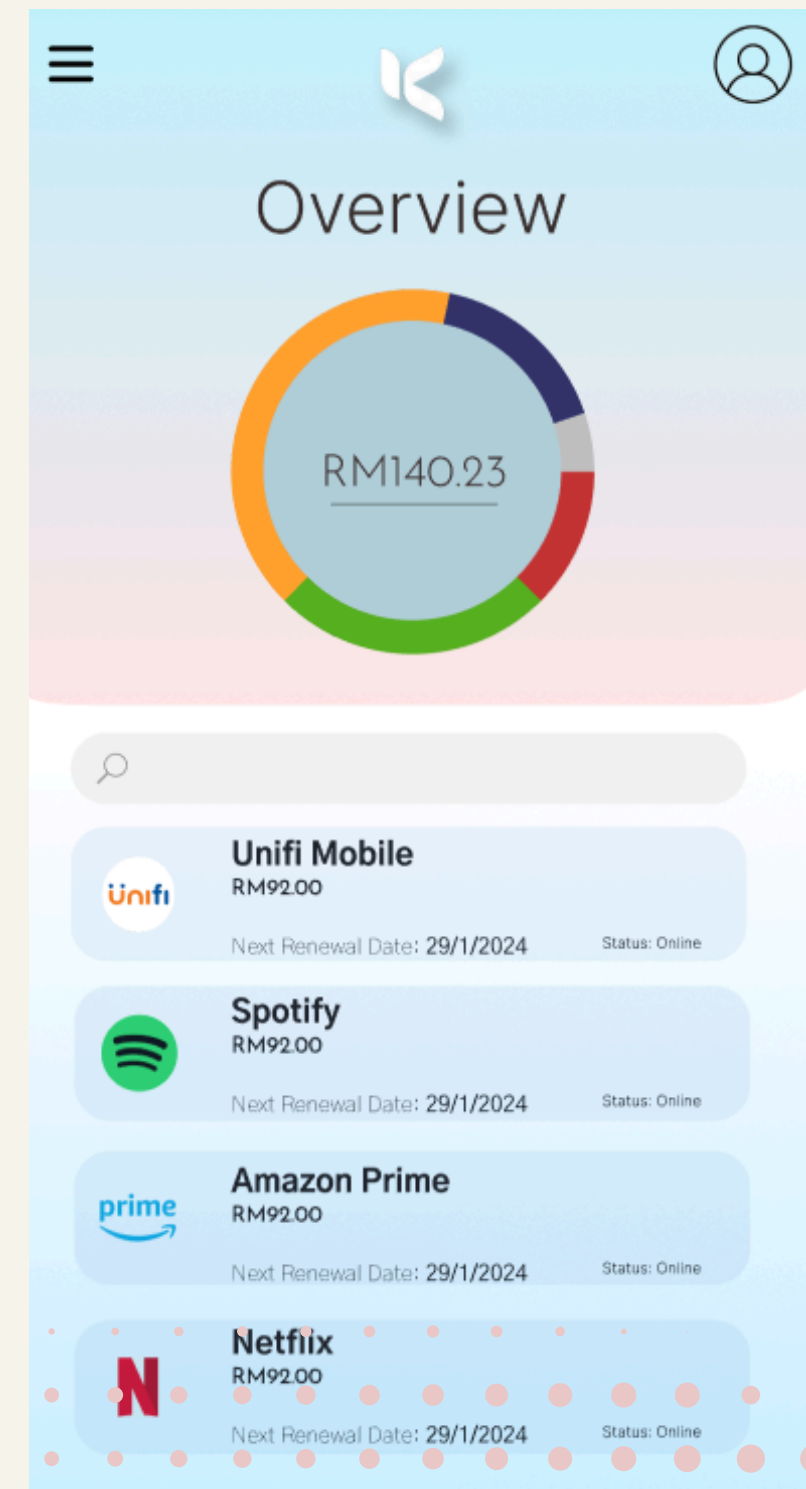

OVERVIEW SCREEN

1 **This screen is dedicated to providing an overview of the user's financial obligations related to their subscriptions.**

**2** **Content: It displays the total amount due for the current month and the next renewal dates for all applications. Additionally, the user's status (online or offline) is shown, providing context for any real-time interactions.**

INDIVIDUAL PLAN MANAGEMENT

1 Overall Layout: Each app has its own management page, allowing users to handle their subscriptions in detail.

2 Content: The page shows the monthly payment amount, options to change plans according to the user's needs, the next renewal date, and the subscription history. Users also have the option to terminate their subscription at any time.

3 Interactivity: Buttons for changing plans and terminating subscriptions are clearly marked to facilitate easy management.

FINANCE MANAGEMENT

1 Overall Layout: The Finance Management page focuses on financial details and transaction history.

2 Content: The page title "Finances" is prominently displayed. Users need to fill in their billing information, including card number, CVV, and bank selection. Below this form, the transaction history for all subscribed applications is shown, detailing the amounts deducted and the corresponding dates.

3 Interactivity: The form for entering billing information is straightforward, ensuring a smooth process for users to update their payment details.
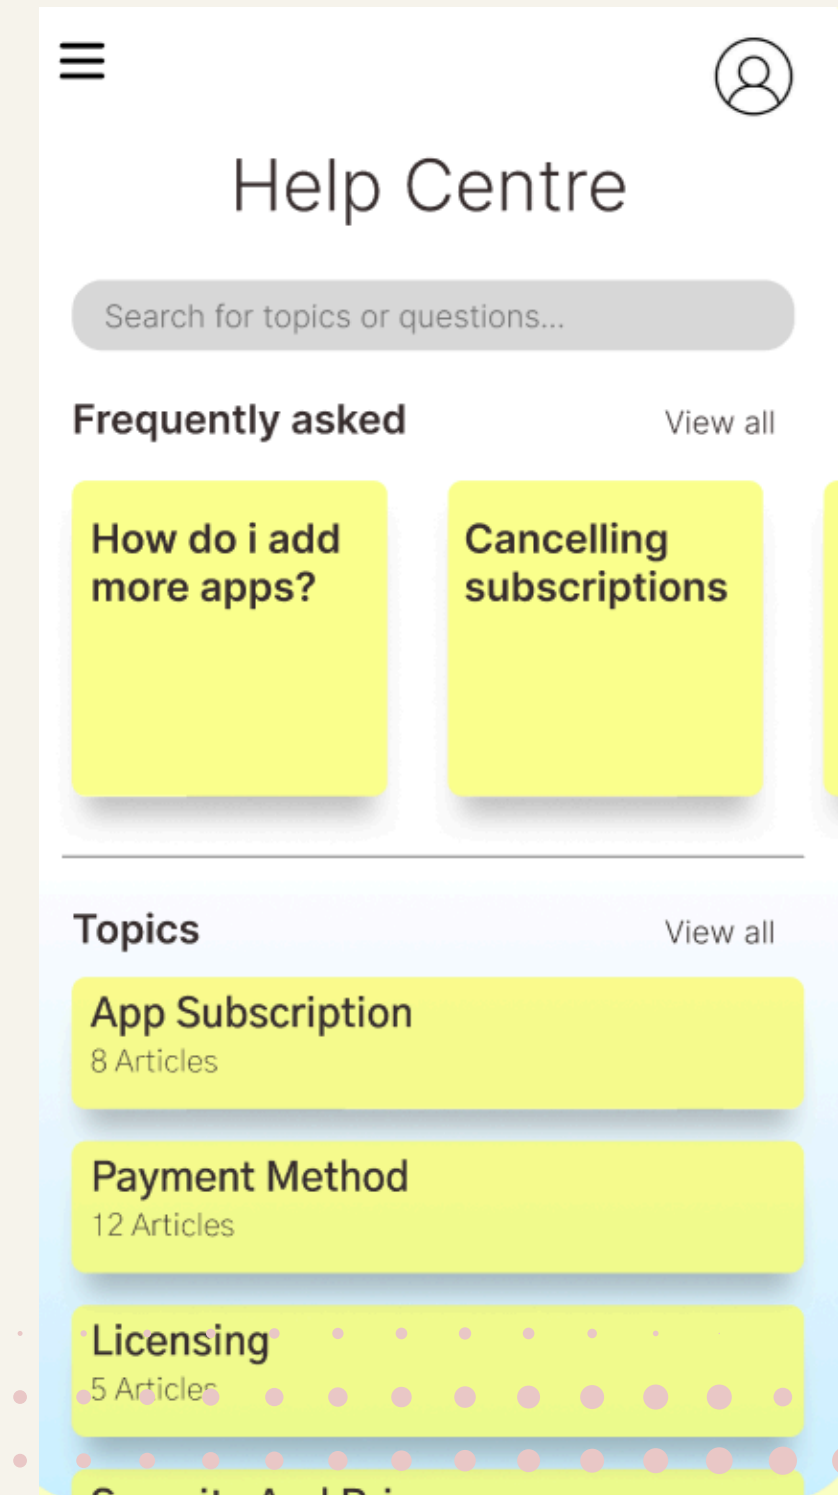

HELP CENTRE

1 Overall Layout: This page is designed to assist users with common questions and issues.

2 Content: It features FAQs on how to add more apps and cancel subscriptions. There is also a search function allowing users to find answers by topic, such as app subscription, payment method, and licensing

3 Interactivity: The search functionality and categorized topics ensure users can quickly find the information they need.

CONCLUSION

The Kanri Subscription Management App is a comprehensive solution for managing multiple subscriptions, enhancing financial stability and productivity for businesses. Key features include a centralized dashboard for real-time management, automated alerts to prevent service disruptions, and expense monitoring tools for insightful spending trends. With customizable data analysis and seamless integration with financial, CRM, and accounting systems, Kanri improves workflow efficiency and data accuracy. The app helps businesses achieve significant cost savings by identifying and eliminating unnecessary subscriptions, streamlining processes, and making data-driven decisions to enhance ROI. Kanri's user-friendly interface and seamless integration improve customer satisfaction, making it the industry benchmark for subscription management and presenting opportunities for collaboration, market leadership, and growth.
